Service Efforts and Accomplishments

In collaboration with the Mayor's Office, the City Clerk is working to automate the Request for Council Action process. Currently, the process is performed manually. The automated process will save the City both time and money. In addition, back-up material for docket items will be scanned and uploaded to the web, providing easy access to City government for the residents and visitors of San Diego. The Office of the City Clerk implemented the "Real Time Motion" during Council meetings. This effort facilitates the Council members' voting process and also assists the public in understanding what is being voted upon.

In an effort to provide wider access to the docket and in response to a suggestion from a member of the public, the City Clerk implemented a televised list of docketed items. CityTV broadcasts the City docket periodically throughout the weekend prior to the City Council meeting.

In addition, the Office of the City Clerk began scanning and uploading all exhibit or back-up material for items presented to City Council. This allows the public to electronically access material prior to Council meetings.

The Elections and Information Services Division has implemented mandatory electronic filing of disclosure statements for campaign committees with contributions or expenditures of \$10,000 or more in connection with a City election. As more statements become available electronically, the public's benefit from rapid, ready access to campaign information will continue to grow.

The Records Management Division has implemented a new imaging program with full text retrieval and 100 percent quality assurance. The program began as a pilot and has now become permanent with two high-volume scanners. The Records Center is in the process of expanding its available storage area and will soon be taking in large volumes of maps. At the end of Fiscal Year 2008, the Records Management Division had updated records disposition schedules available on the Intranet so that they are accessible to all City employees. The Division also plans to digitize photos of mayoral artifacts.
